

To whom it may concern,

XM Satalight Radio is the best thing that has ever came out. I have been with XM for about two years and I think it is great to have road conditions report on the radio 24 hours a day 7 days a week because when you go into a big city you want to know where a big traffic jam may be at and be able to avoid it. please don't mess with our first admendent rights becasue it just makes me pissed off!!!

Thank You,
James B. Tidmore
